

JUST THE FAQ'S

Who is the target audience for the teen Mussar program?

Teens 9-12th grade. This program was designed for synagogues, Jewish Day Schools, Hebrew High Schools, and Jewish community centers that offer teen programming.

How can we become a site?

Please reach out to Rivka Felsher at rivka@mussarinstitute.org

How much does this curriculum cost?

Thanks to generous contributions from nearly a dozen visionary investors, TMI is able to offer this program at no cost to our sites.

In return, we require that teens from our sites complete a pre and post-program survey and that every facilitator completes a post-program survey. This enables us both to track the success of the program for donor reports, as well as to evaluate and improve our program based on user recommendations.

What if we don't have a trained Mussar facilitator on staff?

Facilitators are critical to the success of this program! Once your organization has signed a user site agreement, we will send you our updated and user-friendly Facilitator's Guide. This Guide will offer a basic introduction to Mussar, to Mussar facilitation methodology, best practices, class guidelines, facilitator lesson outline templates, and a resource section.

We also offer 1.5 hours of one-to-one coaching/consultation and will have a Facilitator's Training Video within the year. Additionally, The Mussar Institute offers some basic Mussar Facilitation courses open to all.
